Title: Method and System For On Demand)
Downloading of Module to Enable) Examiner: Woo H. Choi
Remote Control of an Application)
Over a Network)

SUPPLEMENTAL AMENDMENT IN *EX PARTE* REEXAMINATION

25. (amended) *A computer storage medium comprising computer executable instructions for performing a method for providing on demand remote control of an application, comprising the steps of: [the method of claim 21]*

receiving a demand that a user at a first computer desires remote control over an application at a second computer;

in response to the demand, transmitting a remote control module to the first computer over a network, and

the remote control module enabling input-output communications allowing the first computer to remotely control the application at the second computer system without pre-installing remote control software at the first computer prior to receiving the remote control module.

I hereby certify that this correspondence is being filed with the United States Patent and Trademark Office, Patents through the EFS-WEB system or by facsimile to Central Facsimile at 571 272 8300 on **March 3, 2009**.
